S., Mr. Nandkishore Dambale (recorded the video of the proceedings)

PTA executive committee Meeting started with the Principal welcoming the PTA members.

Principal read out the minutes of the previous PTA meeting which was passed unanimously.

He, then informed everyone that the same has been placed on the school website.

Later, he started with the very first agenda of the meeting i.e.

Annual Day

Principal informed that this year's Annual Day theme is 'Little Known Heroes '. Children will put up a short skit and dance. He expressed his concern about the attendance of the students during this period.

Card system will be same as of last year. Maximum 3 family members would be allowed to attend the function i.e. 2 members on invitation card and one on pass if seats are available. For primary maximum 2 family members would be allowed and if necessary a pass for one person would be issued. Strictly no reservation of seats from parents side except special invitees.

No snacks allowed in the shamiana.

One of the parents raised an issue of one child being in secondary and the other in primary cannot be left at home alone. Principal said that in such case school will allot an extra class for the students.

Fees

Principal explained the proposal of Management behind the increase in fees which is due to 7th pay Commission. Fee collected was only to meet the expenses and not for benefiting the Management and he further added that the school is not running on commercial basis. He spoke about the advantages that the child gets when he/she studies in Golden Jubilee School like class strength, quality teachers, provision of quality education, facilities, activities, large campus and thus to meet all the needs we need to increase the fee structure.

Of the 24 members present, except Six parent members everyone in the committee accepted the proposal. One of the parents suggested increase of 10%-15% per year so that the burden is not too

high in one go. Principal said he would have loved to do so but he can't because of Government rules which states that fees can be increased only once every 2 years..

Transportation:

Principal spoke about the law passed by the Government that every student should come to school in school bus . He said that if parents feel the same we could start with the school bus service. It was decided to do the survey for the same.

Principal informed that he was called to his office by the Joint commissioner of Income tax Department and told that when cash payments are being made the PAN No. should be mentioned. .

One of the parents proposed to introduce a system of feedback by students to teachers. Principal said that we do it but when the student passes out 10th. He further stated that we have student council where all the issues are discussed and problems are solved. He said that in principle the idea of getting feedback of teachers from students is very good and he would definitely look into it.

One of the parents asked about parents coming to school and observe teacher's lessons. Principal said that it would be improper to for a parent to be observing the lessons, but said that we could have sytem where in parents could come in and take active part in school activities and in the process they could come up with suggestions to improve our system.

At the end Principal thanked all PTA Executive Committee members.
